Risk Declaration for High-yield Bond Funds

Policy No.: ____

This risk declaration has been made in accordance with Paragraph 6, Article 17 of "Securities Investment Trust and Consulting Association Fund Offering, Sale, Subscription and Redemption Procedures" and Article 8 of "Guidelines on Payment of Channel Commission and Sales Conduct for Members and Selling Institutions."

- ※ Investor refers to the Applicant purchasing this insurance product. Since performance of the investment-linked product you are purchasing is linked to funds that predominantly invest in high-yield bonds, we advise that you comprehend the following risks that pertain specifically to high-yield bond funds before proceeding with the investment:
- I. Credit risk: High-yield bonds are either below investment grade or are unrated; therefore they are prone to risks of issuers' default and bankruptcy.
- II. Interest rate risk: Bond prices are affected by interest rate fluctuation; a rise in interest rate may cause bond prices to fall and bond holders to suffer losses; the same applies to high-yield bonds.
- III. Liquidity risk: High-yield bonds may lack liquidity due to absence of trading activities; in which case, investors may not be able to sell bonds at reasonable prices over the short term.
- IV. Investors are advised not to allocate an excessive weight of their portfolio in funds that feature a high-yield bond focus; investors who are unable to tolerate the risks involved are advised not to invest in high yield bond funds.
- V. For dividend-paying high yield bond funds, it is possible that dividends may be paid out of income or principal.

Any amount paid out of principal may reduce investors' initial investments. Dividends paid out of the funds invested may be subject to administrative charges.

VI. High-yield bond funds may invest in U.S. Rule 144A offerings (up to 30% of total assets for domestic funds; no restrictions apply for offshore funds); these bonds are privately placed in nature and may be prone to lack of liquidity, inadequate disclosure of financial information, and higher volatility caused by non-transparent price information.

I (the Applicant), ______, hereby confirm having fully comprehended the above risks.

This declaration shall also apply to all my subsequent investments in funds of this category.
